Portfolio | LinkedIn | GitHub | LeetCode | GeeksforGeeks

Education

- **B.Tech in CSE (Gaming Technology)**, Vellore Institute of Technology 2023 – Present
CGPA: 9.83 / 10.0
- **Class XII**, Govt. HSS Hinota Kalan, Hatta 2023
Percentage: 95% Damoh, Madhya Pradesh
- **Class X**, Govt. High School Bhainsa, Hatta 2021
Percentage: 95% Damoh, Madhya Pradesh

Internship

- **AI Intern**, Microsoft Initiative with Edunet Foundation & AICTE Apr 2025 – May 2025
 - Selected for a national 4-week internship as part of a Microsoft & AICTE initiative in collaboration with Edunet.
 - Developed **EduMentor AI**, a Retrieval-Augmented Generation (RAG) based learning platform using the Gemini 1.5 Flash API, FAISS vector search, and embedding-based context retrieval to generate personalized study plans and quizzes. Project: github.com/shivakantkurmi/Edumentor-AI

Projects

- **My-Campus – Campus Life Management Platform (MERN Stack) Live — GitHub**
 - Developed a full-stack MERN application with Role-Based Access Control (RBAC), serving 150+ registered users across Student, Faculty, and Admin roles.
 - Built 5+ core modules including QR-based Attendance Management, Notes Sharing, Announcement System, Faculty Directory Search, and GPA/CGPA Analytics, managing 300+ faculty records with Zustand.
 - Implemented secure attendance automation using dynamic QR codes, device fingerprinting, bcrypt password hashing, JWT authorization, and MongoDB indexing to prevent proxy attendance and improve platform security and scalability.
- **Fix_It_Now – (MERN stack + Machine Learning) Live — GitHub**
 - Developed a full-stack web application for grievance management, enabling users to submit, track, and manage complaints through a centralized complaint resolution system.
 - Built an admin dashboard with complaint tracking, status management, analytics, and government scheme information modules to streamline issue resolution workflows.
 - Developed an AI-assisted complaint prioritization system with Machine Learning models and keyword-based fallback logic, alongside heatmap analytics enabling faster issue resolution.

Technical Skills

- **Languages:** C++, Python
- **Core CS & Tools:** Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, SDLC Methodologies, Unity, Vuforia, Git, GitHub
- **Cloud Technology:** Amazon Web Services (AWS)
- **Web:** MERN Stack (MongoDB, Express.js, React, Node.js)
- **Databases:** MySQL, MongoDB

Achievements & Coding Profiles

- **Be HackFest:** Secured 3rd place (Individual Category) at Be HackFest, a hackathon organized by Bloom Energy.
- **District Topper:** Achieved the highest score in the district in the Madhya Pradesh Board Examination (2023).
- **STARS Scheme Scholar:** Selected for the STARS Scheme at VIT Bhopal University for academic excellence.
- **Coding Profiles:** Earned Knight Badge (Top 25% globally) on LeetCode, secured Institute Rank 3 on GFG.

Certifications

- Generative AI – IBM
- C++ Skill Up – GeeksforGeeks
- Full Stack Development – Imarticus
