Portfolio | LinkedIn | GitHub | LeetCode | GeeksforGeeks

Technical Skills

- **Languages:** C++, Python, JavaScript, CSS, HTML
- **Development:** MySQL, MERN Stack (MongoDB, Express.js, React, Node.js)
- **Cloud Technology:** Amazon Web Services (AWS)
- **Core CS & Tools:** Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, SDLC Methodologies, Agile Framework

Education

B.Tech in CSE (Gaming Technology) , Vellore Institute of Technology	CGPA: 9.83 / 10.0	2023 – 2027
Class XII , Govt. HSS Hinota Kalan, Hatta	Percentage: 95%	2023
Class X , Govt. High School Bhainsa, Hatta	Percentage: 95%	2021

Work Experience

- **AI Intern**, Microsoft Initiative with Edunet Foundation & AICTE — [GitHub](#) Apr 2025 – May 2025
 - Selected for a national 4-week internship as part of a Microsoft & AICTE initiative in collaboration with Edunet.
 - Developed **EduMentor AI**, a RAG based learning platform using the Gemini API, FAISS vector search, and embedding-based context retrieval to generate personalized study plans and quizzes.

Projects

- **My-Campus – Campus Life Management Platform (MERN Stack) Live** — [GitHub](#)
 - Built a centralized campus management platform with Role-Based Access Control (RBAC), currently supporting 150+ registered users across Student, Faculty, and Admin roles.
 - Streamlined academic workflows by implementing 5+ core modules including QR-based Attendance, Notes Sharing, Announcements, Faculty Directory Search, and GPA/CGPA Analytics, efficiently managing 300+ faculty records using Zustand state management.
 - Enhanced security and scalability by integrating dynamic QR attendance, device fingerprinting, bcrypt password hashing, JWT authorization, and MongoDB indexing, preventing proxy attendance while improving authentication and database performance.
- **CloudFlow – Project Management Platform (React + Node.js + PostgreSQL + AWS)** — [GitHub](#)
 - Built a cloud-based project management platform to streamline team collaboration by providing organizations, projects, Kanban boards, task management, role-based access control (RBAC), and real-time communication within a unified workspace.
 - Designed and developed a full-stack application using React, Node.js, Express.js, PostgreSQL, and Prisma ORM, implementing JWT authentication with refresh tokens, Socket.IO for real-time comments, drag-and-drop Kanban boards, activity logs, granular permission management, and secure file attachment support.
 - Enabled scalable deployment with Docker and an AWS-ready architecture (EC2, RDS, S3, CloudFront, Load Balancer), while providing a Vercel + Render demo deployment.

Achievements & Coding Profiles

- **Be HackFest:** Secured 3rd place (Individual Category) at Be HackFest, a hackathon organized by Bloom Energy.
- **District Topper:** Achieved the highest score in the district in the Madhya Pradesh Board Examination (2023).
- **STARS Scheme Scholar:** Selected for the STARS Scheme at VIT Bhopal University for academic excellence.
- **Coding Profiles:** Earned Knight Badge (Top 25% globally) on LeetCode, secured Institute Rank 3 on GFG.

Extra-Curricular Activities

- **Student Volunteer:** Assisted in coordinating the Cognizant campus recruitment drive at VIT Bhopal University.
- **Core Member, VRGC Club:** Contributed to technical events, workshops, and gaming/VR activities at VIT.

Certifications

- **AWS Certified Cloud Practitioner** – AWS [Certificate](#)
- **Networking Basics Certificate** – Cisco [Certificate](#)
